Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 12.

Average Hours Per Response: Allocation applications; 30 minutes; renewal, 15 minutes; ownership cap forms and allocation transfers, 5 minutes each; cost recovery and fee payment, 2 hours; landing reports, 2 minutes.

Needs and Uses: This request is for extension of a current information collection.

National Marine Fisheries Service (NMFS) Northeast Region manages the tilefish fishery of the Exclusive Economic Zone (EEZ) of the Northeastern United States, through the Tilefish Fishery Management Plan (FMP). The Mid-Atlantic Fishery Management Council prepared the

FMP pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

The recordkeeping and reporting requirements at § 648.294 form the basis for this collection of information. NMFS requests information from tilefish individual fishing quota (IFQ) permit holders in order to process applications to ensure that IFQ allocation holders are provided a statement of their annual catch quota, and for enforcement purposes, to ensure vessels are not exceeding an individual quota allocation. In conjunction with the application, NMFS also collects IFQ share accumulation information to ensure that an IFQ allocation holder does not acquire an excessive share of the total limited access privileges, as required by section 303A(c) (5)(D) of the Magnuson-Stevens Act.

NMFS requests transfer application information to process and track requests from allocation holders to transfer quota allocation (permanent and temporary) to another entity. The NMFS also collects information for cost recovery purposes as required under the Magnuson-Stevens Act to collect fees to recover the costs directly related to management, data collection and analysis, and enforcement of IFQ programs. Lastly, NMFS collects landings information to ensure that the amounts of tilefish landed and ex-vessel prices are properly recorded for quota monitoring purposes and the calculation of IFQ fees, respectively. Having this information results in an increasingly more efficient and accurate database for management and monitoring of fisheries of the Northeastern U.S. EEZ.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: OIRA_Submission@omb.eop.gov.
